

Solvent Based Concrete Sealer - Matte Finish

Shimicoat Product - Technical Data Sheet

TECHNICAL DATA SHEET

1. PRODUCT DESCRIPTION

Shimicoat Solvent Based Concrete Sealer - Matte Finish is a solvent-based matte concrete sealer, providing a durable, easy-clean protective finish that enhances and protects concrete surfaces.

Product code: SMF

2. TYPICAL USES

Suitable for: a solvent-based matte concrete sealer.

3. KEY FEATURES & BENEFITS

- Durable, protective concrete sealer
- Enhances appearance and reduces dusting
- Easy to apply and maintain
- High-build, high-gloss option available

4. TECHNICAL PROPERTIES

TO CONFIRM - Solvent-based sealer - coverage, recoat and cure data vary by film build and are not yet itemised here; confirm against the live product page / label.

5. SURFACE PREPARATION

Apply only to a clean, dry, sound surface free of dust, grease, oil and contaminants. Grind or etch concrete to a key and run a dry test before coating.

6. MIXING & APPLICATION

- Mix the components per the product label for a minimum of 3 minutes with a slow-speed mixer.
- Apply by roller, brush or squeegee within the pot life; maintain a wet edge.
- EpoDil may be added to thin the product where the label permits.

7. CLEANING

- Clean tools and uncured spills with thinner & diluent (EpoDil).

8. HEALTH, SAFETY & HANDLING

- Store out of direct sunlight and heat. Keep containers sealed.
- A Material Safety Data Sheet (SDS) is available from Shimicoat on request.

TO CONFIRM - PPE, hazard classification and shelf life are not itemised here - refer to the SDS.
