SWIMMING POOL EPOXY

The ultimate solution to rejuvenating concrete pools

SHIMICOAT'S Swimming Pool Epoxy is a high-performance epoxy coating engineered for extreme outdoor conditions. The system can be installed with decorative materials such as Flakes, Glitters and rechargeable Glow in Dark epoxy as well as additional slip resistant properties.

Ideally suited to Australian conditions SHIMICOAT'S Swimming Pool Epoxy is formulated with a high resistance to pool chemicals, including extreme chlorine concentration, and will last a long time without fading while under water. This product is suitable for both fibreglass and concrete swimming pool refurbishment and relining.

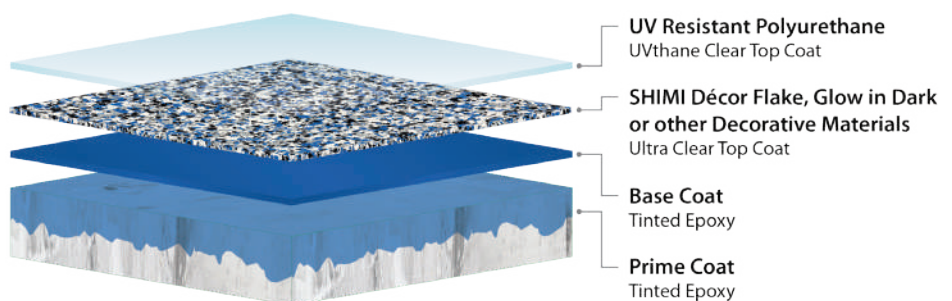

An extensive research and development program was carried out over a number of years to formulate a superior class of chemical and highly UV resistant topcoats for swimming pool applications.

Where to Install:

- Swimming Pools
- Water Tanks
- Fish Ponds
- Chemical Storage Tanks

Features:

- Built-In Optimal Performance and Colour Retention
- Excellent Inter-Coat Adhesion
- Slip Resistant Option in Accordance With Australian Standards
- UV Resistant and Ideal for Underwater Surfaces
- Corrosion Barrier
- Excellent Adhesion to Concrete Surfaces

For further details please contact SHIMICOAT Sales and Technical Department or refer to product bulletin or company website.
