

Epoxy Coving Fast Cure Complete Kit

Kit Includes

Commercial Grade Epoxy Coving Fast Cure contains:

- Order size Silica Sand
- Order size Clear Epoxy Resin 100% Solid

Kit Sizes	Dry Silica Sand 20Kg Bag	Clear Epoxy Resin 100% Solid (Lt)
Small (21.5Kg)	1	1.25Lt
Medium (43Kg)	2	2.5L
Large (86Kg)	4	5L

Usage

Coving

1. Commercial kitchens
2. Food processing plants
3. Amenities
4. Laundries
5. Factories and warehouses
6. Easy wash and flush floors

Applications

Mix 1.25Lt Clear Epoxy Resin (4A:1B), One liter of Part A (Epoxy Resin) and quarter of a liter of Part B (Curing Agent).

Add 20Kg bag of Silica Sand into the resin and mix to achieve uniform epoxy mortar.

Use Trowel, Scraper or Spatula to apply over the corner and create coving.
