SHIMICOAT Metallic Epoxy is a decorative, marble like in appearance, flooring system for Residential and Commercial applications available in a wide range of finishes; Matte, Semi-Gloss or High Gloss.

Unique in style, design and pattern to create your own floor of beauty, easily match the colour scheme in your home, showroom or display areas.

Pearlescent Metallic Pigments are used in epoxy resin to create unique marbled floor coatings, presenting pearlescent, shimmering and iridescent accents with gleaming finishes. The gloss can be regulated over a range of matte, semi to high gloss finishes. Metallic luster floor coatings are the latest technology where art and industrial applications merge. SHIMICOAT Metallic Epoxy floor applications are suitable for commercial application, retail environments and residential areas for customers seeking longevity and point of difference.

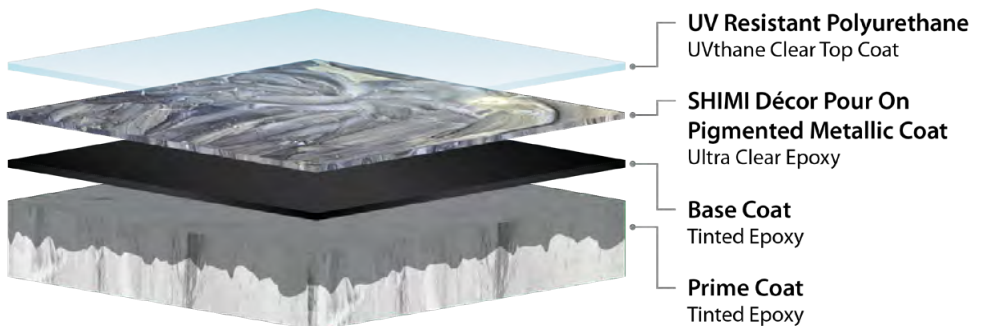

Manufactured by SHIMICOAT, the products are odourless, self-levelling, easy to apply and engineered to be ideally suited to Australian conditions.
