SURFACE SOLUTIONS

EPOXY OVER EXISTING TILES

SHIMICOAT provides both industrial and commercial epoxy floor finishing systems that are decorative, functional and ideally suited to apply over existing tiled surfaces. The product adheres strongly to well-prepared tile surfaces with minimal rise and change in floor height (1-3mm). The system can be used for Prior to Coat installations such as coving, screeding and other surface preparation procedures. Flexi Mortar Epoxy can be used to fill the cracks, grooves and existing control joints. Epoxy Over Existing Tiles is available in many top surface finishing options such as:

Pre-Tinted Epoxy

Metallic Marble Finish

Epoxy Flake Floors

Slip Resistance Compliance

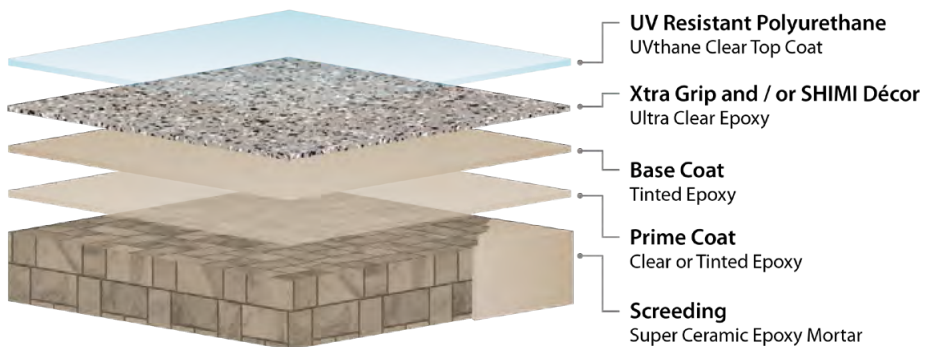

Manufactured by SHIMICOAT, the products are odourless, self-levelling, easy to apply and engineered to be ideally suited to Australian conditions.
