# GLOW IN THE DARK UVTHANE COATING SYSTEM

*UV Resistant Polyurethane . Rechargeable Surface . Glow in the Dark*

 **UV Resistant**

 **Natural Light Rechargeable**

 **Safer Surfaces**

 **Modern**

## Features:

- Epoxy Free UVthane Coating System (UV Resistant Polyurethane)
- Long lasting Glow in the Dark
- Easily dispersible into clear UVthane
- Ideally suited to outdoor surfaces with full exposure to UV radiation
- Easy roll, brush or pour-on application
- Two vivid colours, BLUE & GREEN

## Glow in the Dark Decorative Coating

The ultimate floor and countertop coating system with a rechargeable long-lasting Glow in the Dark feature in both Blue and Green.

The Glow in the Dark powder is impregnated within the matrix of the UVthane (UV Resistant Polyurethane Resin). The system is ideal for both indoor and outdoor use with ultimate durability, UV resistant properties and strong surface bonding. The epoxy-free system is designed with UVthane to ensure under sun application for recharging the Glow-in-the-Dark material with a smooth, glass-like finish and a unique glow in the dark blue/green sparkle.

The SHIMICOAT Glow In The Dark UVthane Coating is unique in style, design and pattern to enable you to create your own bespoke finish that coordinates with the colour scheme in your home, showroom or entertainment venue.

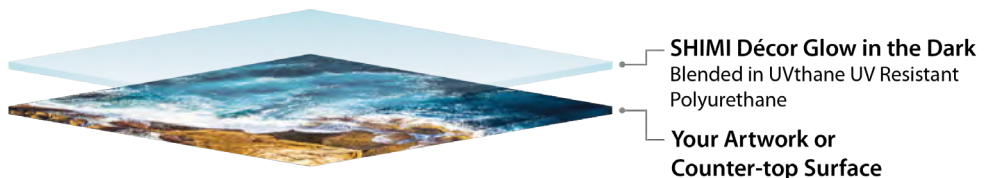

The Glow in the Dark materials used are applied within the body of the UVthane resin to create a unique coating surface, presenting a bright, sparkling glow in the dark depth making it the ultimate choice for an artistic showroom floor with the durability of an industrial finish. The SHIMICOAT Glow in the Dark Finishing System can be incorporated into other flooring systems such as Flake Systems, Metallic Flooring Systems, Glitters and many art works to provide shimmering and iridescent accents with gleaming finishes.

The gloss can be regulated over a range of matte, semi to high gloss finishes. The SHIMICOAT Glow in the Dark coatings are the latest technology where art and industrial applications merge to form bold, elegant and forward thinking surfaces. Ideally suited to bars, clubs, entertainment venues, retail environments, offices and residential customers seeking longevity and point of difference.

Manufactured by SHIMICOAT, the products are odourless, self-levelling, easy to apply and engineered to be ideally suited to Australian conditions.

## Where to Install:

- Entrances / Exits - Safer Floors
- Swimming Pools and Surroundings
- Driveways and Passageways
- Counter-tops and Artwork Surfaces
